

Original Design by Connie Keller

Trucks in the Daisy Patch

47" X 47"

Please read instructions before beginning.

Finished block size 8 1/2"

Cutting the following:

Background Fabric	blocks	(9) 10" squares
	2nd border	(4) 2 1/2" strips
	4th border	(5) 6 1/2" strips
Sashing Fabric	sashing	(3) 1 1/2" strips X 44", subcut into (12) 8 1/2" strips
	1st border	(4) 1 1/2" strips
	3rd border	(4) 2" strips
Assorted fabrics	Cornerstones	(4) 1 1/2" squares

Making the Blocks

Using your favorite method, appliqué the design you have chosen on to each block. Trim all the blocks to 8 1/2" x 8 1/2".

Sashing the Blocks

Arrange the blocks in a pleasing manner. Using the 1 1/2" corner stones, sash the blocks as shown in the diagram. This will complete the center of the quilt.

Borders

Always measure your quilt before cutting the borders. The size of your quilt will vary from anyone else's because we all sew a little different.

First border

Measure the width of your centerpiece, cut two strips this length and sew to the upper and lower edge of the centerpiece. Repeat with each side of the centerpiece. PRESS seams away from center.

Second border

Measure the width of your centerpiece, cut two strips this length and sew to the upper and lower edge of the centerpiece. Repeat with each side of the centerpiece. PRESS seams away from center.

Third border

Measure the width of your centerpiece, cut two strips this length and sew to the upper and lower edge of the centerpiece. Repeat with each side of the centerpiece. PRESS seams away from center.

Optional third pieced border

Using the fabrics remaining from the appliqués, cut 2" strips. Sew strips together and sub cut into 2" strips. You will need approximately 4 ½ yards of these scrappy strips. Follow directions above for sewing onto the quilt.

Fourth Border

Sew strips together end to end. Measure the width of your centerpiece, cut two strips this length and sew to the centerpiece and the bottom. Repeat with each side of the centerpiece. PRESS seams away from center.

Optional Curvy Border

After your quilt is quilted, you may leave the borders straight or continue with the curvy border below.

Fold the quilt into fourths. Tear off a piece of freezer paper the length of the longest side of folded quilt. Cut in half, length wise and iron to the folded sides of quilt, overlapping at the corner. Using a dinner plate, center and trace around the curve of the plate to achieve a nice rounded corner. Begin at the outside edge of the corner curve and using a marker, draw a gentle curve along the outside edge of the quilt. If you like the first drawing, GREAT! If not, take another color marker and, using the first line you drew adjust as you re-draw a new curvy line. These do not have to be even curves or an even number of curves along the side. Continue changing marker colors until you achieve the look you want. Use the template you just made to cut through all of the layers of that side of the quilt. Repeat with remaining side of quilt. You may want to use bias binding for the curvy border.

Quilt as desired. Bind and enjoy!!

Trucks in the Daisy Patch

47" X 47"

QC135

Pattern designed by Connie Keller
Choose bright happy fabrics and make
one of these great quilts for your
favorite munchkin!

Supplies:

flowers or trucks

5 Fat quarters

hearts or stars

4 fat quarters

background

2 yards

(includes blocks, border #2 & #4)

borders #1, #3 sashing

1 1/2 yards

binding

3 yards backing

1 yard of stabilizing material

1 yard of fusible webbing

threads to match appliques

freezer paper (for opt. curvy border)
